

## CYCLIST FUEL

09/14/2011 21:53:53

Yesterday I emailed DOT (Department Of Transportation), here is the transcript:

My venture is named Cyclist Fuel. I will be making a film to record the development of the different phases. I have need of more poignant information:

- Rules and Regulations for developing mid-sized aeronautical and marina ports that can support both water bound as well as air bound vessels
- I am an inventor as well “UNICEF” is the name I give this vessel and my invention rides on land; floats in and above water & moves in the air, around the same height or a little lower than what aviators fly when they start off with their private license (Propeller “Cessna” type).
- Some of these ports will be used for a new type of air; ground & water type events, while others will be resorts (casinos), crowds will be there to view and or purchase new electric vehicles and or advanced fuel saving productions.
- And much more like scientific work (developing an air worthy flight path that does not interfere with current airways / roadways / water routes
- Expert advisory is needed

Cyclist and Editors let others know, that is (Word of Mouth / Grassroots). Here is a little peek

# media.cyclistfuel.com

**MEDIA.CYCLISTFUEL.COM**

**(TRANSMITERS / RECEIVERS) / (FILMING) / ETC.(MEDIA).**

**Mr. I. Quote: There's no LAW that says the public in general are not allowed to utilize radio equipment.**

**CYCLIST FUEL Film**

**I am an inventor as well!**

**I envision a flying cycle, I christen "UNICEF"**

**I HAVE MANY DESIGN BLUEPRINTS, however the final draft is shaping up to be built as follow:**

**Tubular Frames - Like the Cages used to protect Drivers inside Formula 1, NASCAR & Other Race Cars; Lite & Strong**

**Inspiration:**

The DYSON FAN - Goto [www.dyson.com](http://www.dyson.com)

&

Another Fan I just bought that uses the front part of the fan as a vortex generator to increases wind velocity

Couple all these together and the frame of UNICEF becomes a "Super Conductive Wind Tunnel Frame",

Which in "THEORY" will allow UNICEF to hover or float in the air from a stand still position or while moving /

Don't want to say too much or else people won't have a real reason to go and see the MOVIE!

## Industrial-Growth

### ecofriendly

**e-co·friend·ly** [ékō frèndlee, éékō frèndlee]

*adjective*

**not harmful to the environment:** intended or perceived to have no harmful effect on the natural environment and its inhabitants

&

### green

**green** [green]

*adjective (comparative green·er, superlative green·est)*

- 4. green or GreenPOLITICS advocating protection of the environment:** supporting or promoting the protection of the environment
- 5. ENVIRONMENT made with little environmental harm:** produced in an environmentally and ecologically friendly way, for example, by using renewable resources

# DrivingConcierge.CyclistFuel.Com

In an economy where gas prices are steadily rising every year,

SO,

I see a niche for providing employment for our Community:

Cars use so much gas for short trips like pizza delivery

(Cyclist Fuel could actually be the new delivery system for anything from PIZZA - COURIER),

taxicab trips for one person to get across town & back, picking up small items on a daily basis & during holiday seasons, people get hungry and might want a meal from a local Restaurant, etc. and the list goes on that we can deliver quicker and at a reasonable price, while helping with greenhouse gases and so on!

## Examples of Reasonable Pricing

Pizza Delivery: \$3.50

CycleCab™: \$1.00 / Mile

Concierge Pick Up & Delivery: \$5.00 & Up

Medicine Pick Up: \$2.50

## Guaranteed Coming Soon!

Just tad-bits of [www.cyclistfuel.com](http://www.cyclistfuel.com) is about and is doing, well just a smidgen of worldwide advances for cyclists and please do not forget when a culture has a “rebirth of thinking” there are the “AWISE” that will be able to make a living as well

(ARTIST / WRITERS / INVENTORS / SCIENTIST / ETC.)

Name: LIONELL / LIONELL INC and I'm always available for this venture. I check my [cyclistfuel@cyclistfuel.com](mailto:cyclistfuel@cyclistfuel.com) address @ least once a week, if whomever and I should ever have a talk over the phone / (Only way is to start with an e-mail that show true interest to I).
